**iZi Flex S fix**

**Recommendation list for cars and installation of iZi Flex S FIX**

The iZi Flex S FIX is a universal ISOfix child restraint system. It is approved to regulation 44.04 series of amendments for general use in vehicles fitted with ISOfix anchorage systems or 3-point carbelt. The iZi Flex S FIX is suitable for fixing into the seat positions of the cars listed below, providing approved ISOfix points are fitted and available. Due to differences in cushion shape and angle, the iZi Flex S FIX has to be tested in the particular vehicle seat if it really fits in the right way. Seat positions in other cars may also be suitable to accept this child restraint, however we have not yet tested that combination of car and iZi Flex S FIX. This carlist refers only to ISOfix positions. Positioning in seating positions without ISOfix is in principle always possible with stowed FIX arms. If in doubt, consult either BeSafe or the retailer. For updated carlist see: www.besafe.com

The child must always be secured with the 3-point carbelt, using the iZi Flex S FIX. In cases where the fixation point of the 3 point carbelt is positioned in between the ISOfix points of the car, the iZi Flex S FIX can not be used with connected FIX arms. In some vehicles the space for the head in the rear seat is limited. If you fasten the iZi Flex S FIX with the FIX arms in these vehicles, it may not be possible to use the child seat up to a standing height of 1.50 m. This may be the case, for example, if the iZi Flex S FIX headrest hits the vehicle's C-pillar. Please observe the heights shown in the type list. When a vehicle is marked with \*, the space for the head might be limited to 1,35 m. standing height for specific models of this vehicle.

ISOfix anchorages in the passenger seat (position 1) are normally offered as option, so depending on the model this position can be available or not. Recent model updates are not mentioned, only when the seating positions are changed, the model update is mentioned. iZi Flex S FIX fits normally in later model updates of the same model.

**!** Notice: For the correct usage of the airbag in combination with the seat; read the vehicle handbook.

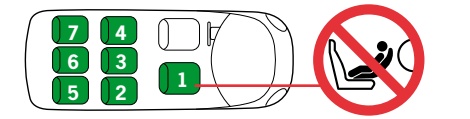

Table with 5 columns: Manufacturer, Model, 1st year of production, Approved seats, Standing height child. Lists various car models from manufacturers like Alfa Romeo, Audi, BMW, Citroen, etc.

Table with 5 columns: Manufacturer, Model, 1st year of production, Approved seats, Standing height child. Lists various car models from manufacturers like Dacia, Daihatsu, Fiat, Chevrolet, Chrysler, Citroen.

Table with 5 columns: Manufacturer, Model, 1st year of production, Approved seats, Standing height child. Lists various car models from manufacturers like Ford, Infiniti, Jaguar, Jeep, Kia, Honda.

Table with 5 columns: Manufacturer, Model, 1st year of production, Approved seats, Standing height child. Lists various car models from manufacturers like Hyundai, Lada, Lancia, Landrover, Lexus.

Table with 5 columns: Manufacturer, Model, 1st year of production, Approved seats, Standing height child. Lists various car models from manufacturers like Lynk & Co, Maserati, Mazda.
