

CAR LIST

UN regulation no. R129 i-Size

izi Modular i-Size Base

Recommendation list for cars and installation of iZi Modular i-Size base

Note: The car manual is the leading guideline and must always be followed. This car list does not limit or guarantee the fit of this child seat.

The child seat is a universal i-Size child restraint system. It is approved to regulation R129 to use in all vehicle positions marked with the i-Size logo.

This child seat will also fit vehicles with positions approved as ISOfix positions (as detailed in the vehicle handbook), depending on category of the child and of the fixture. The mass group and the ISOfix size class for which this child seat is intended is : D.

This child seat is suitable for fixing into the seat positions of the cars listed below, providing approved ISOfix points are fitted and available and the car manual does not forbid the installation of this type of child seat. Seat positions in other cars may also be suitable to accept this child restraint, however we have not yet tested that combination of car and child seat. If in doubt, consult either BeSafe or the retailer. For updated carlist see: www.besafe.com ISOfix anchorage in the passenger seat (position 1) are normally offered as option, so depending on the model this position can be available or not. Vehicle seat positions marked with \* can have a storage compartment in front of the vehicle seat.

If the support leg would be positioned on a storage compartment in front of the seat, you must follow the car manufacturer's instructions regarding how to handle the storage compartment. When the floor under the floor support is insufficient to hold the forces you can not use this child seat in this position of the car.

BeSafe recommends to test the installation of this child seat in all vehicle seat positions which are intended to be used and check installation, available space in the vehicle and position of the child, to verify if this child seat is acceptable for your situation.

Notice: DO NOT use on a passenger seat fitted with activated frontal airbag.
